June 22, 2005

Sir:

In response to the Office Action mailed February 22, 2005, the period for response having been extended for one month by the attached Petition for Extension of Time, Applicants herein provide the following amendments and remarks, as listed in the following, and as set forth on the following pages:

Amendments to the Specification and Abstract;

Replacement Sheets including amended drawing figures are attached;

Amendments to the Claims; and

Remarks are included following the amendments.

proposed combination of Edwards et al., and Grant would not render obvious the subject matter of claims 20-40.

Newly submitted claim 41 recites:

"The structure for specifying a hyperlink comprised on a hypertext page includes an input key element for identifying a specific fixed location input key at an edge of a display of a portable apparatus; a visual element indicative of a second hypertext page; and a location element for identifying the second hypertext page."

As stated above, Edwards et al., does not pertain to a portable apparatus which includes an input key element for identifying a specific location input key at an edge of a display on a portable apparatus since the teaching of a telephone for displaying the subject matter Fig. 2 does not meet this limitation.

In view of the foregoing amendments and remarks, it is submitted that each of the claims of the application is in condition for allowance.

Applicants request any shortage or excess in fees in connection with the filing of this paper, including extension of time fees, and for which no other form of payment is offered, be charged or credited to Deposit Account No. 01-2135 (Case: 1154.39383X00).

Respectfully submitted,
